HOPE CARRANZA WILL ACQUIESCE

Mexicans Here Say Influences May Cause Him to Join Peace Conference.

VILLA AND ZAPATA CLANS WILLING TO TAKE PART

Official Dispatches From Vera Cruz Announce Murder of an American by Bandits.

Today's developments in the Mexican situation indicated the certainty that the proposed peace conference of Mexican revolutionary chieftains, suggested by the United States and other American governments, will be held, as planned, whether Carranza and his generals join in it or not. It was the general understanding among Mexicans in Washington today that Carranza will be ignored if he does not finally consent to join in the conference.

The delay in receiving Carranza's reply to the pan-American peace appeal, however, has raised hopes among them that influences are at work to induce him to participate. It is expected that he will answer the appeal in a day or two, as soon as he establishes himself in Mexico City again, as he is said to be about to do. The Villa and Zapata adherents, it is stated, announce their intention of proceeding without Carranza in case he decides not to participate in the conference. They added that it is possible the pan-American conferees would be asked to arrange the details of the proposed peace meeting.

Zapata's Acceptance Received.

The State Department today acknowledged the receipt of Gen. Zapata's acceptance of the pan-American peace appeal. Favorable replies have now been received from practically all the Mexican chieftains outside of the Carranza forces.

Official dispatches from Vera Cruz today tell of the receipt of mail reports there of the killing of E. F. Welles, a United States citizen, by bandits who boarded a train and shot the passengers, of whom Welles was one.

The dispatches also state that attacks upon United States citizens, with loss of life and property, makes it seem certain today that conditions in Mexico will not much longer be tolerated, and there were reports of the probability that if Carranza insists upon holding out against the peace conference, the warring chieftains are getting the ammunition to their so-called troops by way of Carranza's army.

It is said that the administration against Carranza is now being organized, and that the possibility of laying an embargo on the shipment of ammunition to Carranza if he still holds out against the peace proposals.

Carranza to Defend Monterey.

Carranza's troops in northeastern Mexico were reported today as being concentrated to defend Monterey against an attack by the Villa army, believed imminent. Monterey has been fought for many times in the last few years, and it is generally understood that an embargo against arms and ammunition shipments would be effective in halting much of the fighting going on in that section and others.

Maj. Gen. Scott, chief of staff of the army, was ready to report to Secretary Lansing today the results of his special mission to the Villa army, and the State Department in furtherance of the pan-American peace plans. He had just returned from the Villa army, which he is believed to have gathered considerable information of value to Secretary Lansing, and the State Department in their consideration of the Mexican problem.

Holds Conference With Villa.

Gen. Scott conferred with Gen. Villa and adjusted troubles due to the seizure of property of foreign merchants at Chihuahua and also discussed with him the pan-American peace proposal which the northern chief and his followers have accepted.

The pan-American conferees will not meet again until Gen. Carranza's response to their appeal has been received. Carranza agents said they looked for it today. The conferees here are expected to hold a preliminary meeting for a peace conference and urge recognition of the Carranza government.

ZAPATA FOR PEACE PARLEY.

Other Southern Mexican Generals Also Favor Such Conference.

MEXICO CITY, August 28 (delayed transmission).—Gen. Emiliano Zapata has made a favorable reply to the note recently sent by the Pan-American conference to all Mexican leaders, offering to aid in arranging a convention to be held in neutralized Mexican territory for the purpose of creating a provisional government to provide for general elections.

Hussell and Frank Aziz, the messengers sent with the note to Gen. Zapata, arrived here today carrying his answer, also favorable reply, from Gen. Manuel Palafox, Francisco Chazaro, Pacheco, Lazo and others.

KILL 47 MEXICAN BANDITS.

U. S. Soldiers and Poses Scatter Remains of Outlaws.

BROWNSVILLE, Tex., August 30.—According to authentic information received here, forty-seven of the Mexican bandits who participated in the attack upon the Norias ranchhouse,

STORIES OF BREAK CLASSED AS "ROT"

Secretary Tumulty Says President Wilson and Col. House Are as Close as Ever.

"MIGHTY INTERESTING, IF TRUE," SAYS THE TEXAN

Several Versions of the Tale Which Says Oswald G. Villard Is Now Favorite.

One of them is a plain story that the President has come to be so fond of Oswald G. Villard, editor and publicist, that he is paying very much attention to Mr. Villard's suggestions about the European and Mexican situations, simply preferring the wisdom and sage advice of Mr. Villard to that of Col. House.

The other story fails to give prominence to Mr. Villard as the successor of Col. House, but says that the latter generally has lost his potent influence with the White House because he does not agree with the President as to the settlement of the Mexican problem, and believes that Gen. Carranza should be recognized.

Shifts Advisers, Says One.

The intimation, too, is that the President has received much contrary advice about Mexico and that if he depends upon one adviser a while he shifts to another and adopts a new policy. The second story refers to the fact that John Lind, who represented the administration in Mexico a long time, favored the recognition of Carranza and that the President soon supplanted him with Paul Fuller of New York, who was opposed to Carranza, Fuller being eventually supplanted by Duval West, a Texas lawyer, who knew Mexico and did not show much love in his reports to the President for any of the Carranza forces.

The final straw that put Col. House out of presidential favor, the story goes, was the Carranza case.

The largest delegation of returning employees was that of upward of 800 girls at the Crown and the George C. Batcheller Corset Company. At a meeting of employees of the Sals Textile Company, where 1,500 are out and the plant is closed, the Carranza case was discussed. The Carranza case was discussed. The Carranza case was discussed.

No Reason for Change Given.

The Villard story does not give any special reason why the President has transferred his affections to the New York editor, who has been coming to Washington at intervals in the last six months and working on good stories for his newspaper. Mr. Villard has taken his chances with the reporters and correspondents, and when administration officials have asked him what he thought about any particular question he has given his views. He has not been accused of any special privileges, however, and has not seen President Wilson when other newspaper men were present.

The Villard story today in New York, referred to the stories as "mighty interesting, if true."

Col. House, however, most of the other men who have been President is that he has no favorites in official life. He is said to be a fair man, and may be said to be the single exception. Those who have kept close track of the Carranza case, however, the White House have never found him showing favoritism in his cabinet, among the newspaper correspondents or along other lines. All are accorded the same treatment.

Secretary Tumulty this afternoon made the "break" stories.

The reports of a break between President Wilson and Col. House, however, are not personally that the relations between them are as close as ever.

PRESIDENT PUTS ASIDE PLANS FOR A VACATION

To Remain in Washington Until Controversy With Germany Is Settled.

President Wilson today gave up all idea of a further extended vacation at Cornish, N. H., deciding to remain here until the Arabic and other questions with Germany, and the proposed note of protest to England on delays in shipping, as well as Mexican affairs, are in a more satisfactory condition.

The President had planned to spend the whole month of September at Cornish. This idea has been abandoned for the present, though he may get away again for a few days.

Awaits Formal Disavowal.

The President already has received assurances from official German sources which he hopes will result in solving the controversy with Germany over her submarine warfare.

TOLEDO, Ohio, August 30.—When Mrs. John Stader returned home from a trip to England, she was met by a man who told her that her husband had been killed in a battle. The flash revealed her husband dead in a chair. He had turned on the gas, the coroner found, and committed suicide.

Oregon Farmers Fight Forest Fires.

Portland, Ore., August 30.—Three hundred men, many of them farmers called from their harvesting, were fighting three big forest fires today in the Cascade mountains near Mount Hood. Thousands of acres of woodlands are being burned and many fields of grain have been destroyed. Smaller fires are burning in other sections near Portland. Forestry officials charged today that several of the fires were of incendiary origin.

FACTORY WORKERS WIN STRIKES AT BRIDGEPORT

Connecticut Employers Are Granting Eight-Hour Day at Same Pay.

BRIDGEPORT, Conn., August 30.—Many hundreds of factory workers who have been on strike since last week, transferred to their accustomed tasks today, their differences with employers over hours and compensation having been adjusted. In nearly every instance the workers have entered upon the eight-hour schedule, without a reduction in wages.

Remington Strike Again Threatened

A conference will begin today to discuss the question of ordering a general strike against the Remington Arms Company, which has been threatened by the workers of the Remington plant, who claim they were promised an advance in wages. They formerly received \$1 per hundred for polishing bayonets and gun barrels, but claim that when the eight-hour schedule was adopted their wages dropped to 80 cents per hundred.

Four Men Discharged.

Four men refused to accept the new scale, and when they protested they were discharged. The union in appealing for assistance asked that all the metal workers in the plant be called out. The number of plants at which there are strikes today number thirteen.

BRITISH STEAMER IS SUNK.

One Neutral Vessel Is Released and Two Others Are Detained.

LONDON, August 30, 1:50 p.m.—The British steamer Sir William Stephenson of Newcastle, 1,514 tons gross, has been sunk.

The Norwegian steamer Salonika, from Galveston, July 28 for Aarhus, Denmark, has been detained at Kirkwall by the British authorities.

The Swedish steamer Sydla, from Baltimore for Malmö, Sweden, has been released.

Senator Underwood "First Citizen."

MONTGOMERY, Ala., August 30.—Gov. Henderson has announced the appointment of Senator Oscar Underwood to represent Alabama as her "first citizen" at the Panama-Pacific exposition at San Francisco.

STATE TROOPS PREVENT MOB LYNCHING NEGRO

Three Companies of Illinois Militia Surround Jail When Threats Are Made Against Alleged Murderer.

MURPHYSBORO, Ill., August 30.—To prevent the carrying out of threats of lynching made against Joe Deberry, a negro charged with the murder of Mrs. James Martin, three companies of the Illinois state militia stood guard around the jail and courthouse here today, the day set for the opening of Deberry's trial. A mob of several hundred persons, who surrounded the Harrisburg, Ill. jail last night, intent on lynching the negro, was felled when officials smuggled the negro out of the jail and hurried him here in an automobile under escort of state troops.

Deberry is alleged to have confessed to the murder of Mrs. Martin, who was the wife of an attorney. He was a servant in the Martin home. Threats of lynching were made at the time of the murder, and feeling was intensified when, several weeks later, Mrs. Martin's husband died of an illness induced by the shock of his wife's death.

PROPOSE "VANITY BOXES" FOR THE U. S. SOLDIERS

Pouch Designed as Receptacle for Adhesive Plaster and Powder for the Feet.

Uncle Sam's soldiers are to be provided with vanity boxes. At any rate a favorable report has been made on some experiments which have been conducted by the second division on an article of equipment referred to as the soldier's vanity box. This article is a pouch, designed by Capt. James D. Taylor, 7th Infantry, intended to carry adhesive plaster and powder—not for the face, but for the feet. It is made of the same material as the haversack, and is to be carried by duty sergeants and squad leaders in the place provided for trenching tools. It is eight and a half inches by four inches in dimension, and is attached by glove fasteners like those on first-aid packets.

Commanding officers who watched the experiments expressed the belief that the article will be a decided acquisition to the equipment of the soldier. It will make it possible, they said, for the duty sergeants and squad leaders to treat sore feet of the enlisted men on the march without any unnecessary delay. It has been found inconvenient to carry such packages in the haversack.

HEAVY GUNS IN ACTION

ON THE WESTERN FRONT

PARIS, August 30.—Violent artillery fighting took place yesterday evening at many points in the Argonne district, as a result of which the trenches of the Germans were seriously damaged, according to the French official report of this afternoon.

TOTAL OF 700 MEN AT WORK

Mobile and Ohio R. R. Shops at Whistler, Ala., Resume Operations.

MOBILE, Ala., August 30.—When the repair shops of the Mobile and Ohio Railroad Company at Whistler resumed operations today 700 employees went on the pay roll, and each month as the pay car makes its visit to the shops about \$35,000 will be put in circulation, whereas a little over half that amount has been placed in circulation the past seven months.

The order placing the shops on full time gave employment to some men who have been out since October 5, 1914. Every department will work eight hours.

U. S. TO INVESTIGATE DYE STUFFS SHORTAGE

Commercial Agent Norton Opens Headquarters for Inquiry at New York Customhouse.

NEW YORK, August 30.—The shortage of dyes in this country resulting from the blockade on the exportation of the German product will be investigated here this week by Thomas H. Norton, the commercial agent appointed by Dr. E. E. Pratt, chief of the bureau of foreign and domestic commerce. Mr. Norton was expected here today with a staff of assistants, and a room in the customs-house has been set apart for their use. Leading manufacturers in lines affected by the scarcity of dyes will be interviewed. The results of the investigation will be embodied in a report made to Secretary Redfield of the Department of Commerce.

The investigators will have before them a statement issued recently by the Master Dyers Association of Philadelphia, which describes conditions said to be typical of the situation throughout the country. The Philadelphia district is one of the largest dyeing centers of the world.

Need Raw Material.

The statement signed by the Philadelphia manufacturers says that the American manufacturers of colors who were established before the war are well aware of what is required and are making every effort to meet the situation. Their greatest obstacle lies in obtaining raw material owing to the present demand for such products for war and other purposes. Most of the efforts of the domestic manufacturers, according to the statement, are toward producing shades of black, which are used in largest quantities. The Philadelphia dyers declared that in a few weeks the shortage in colors of various shades would be as serious as the shortage now existing in blacks.

MASONS IN CONVENTION.

Two Bodies Convene in Annual Session at San Francisco.

SAN FRANCISCO, August 30.—Masons from all parts of the United States were here today to attend the two Masonic conventions that are to be held this week.

The first convention, which opened today, was the twelfth triennial assembly of the Royal and Select Masters of the United States. Wednesday the thirty-sixth triennial convention of the General Grand Chapter, Royal Arch Masons of the United States, is to convene for a three-day session.

Chicago to Have Lowest Taxi Rate.

CHICAGO, August 30.—Chicago is to have the lowest taxi rate in the United States, it was made known today. A local taxicab company announced that it had reduced its fare for an average trip within the business district to 20 cents, a rate lower than that authorized by the city ordinances. The former rate was 30 cents.

German Kriegerbund in Session.

ST. PAUL, Minn., August 30.—Major Winn Powers delivered an address of welcome today at the first business session of the German Kriegerbund of America, whose twenty-eighth annual convention opened here last night. The reading of reports of the various officers and the resolutions committee was the important business before the meeting.

60,000 at Pittsburgh Schools.

PITTSBURGH, Pa., August 30.—The Pittsburgh public schools reopened today, following the summer vacation. William M. Davidson, superintendent of public education, said he expected 60,000 children would report this year.

READY TO LAUNCH BIG LABOR SYSTEM

Commissioner General of Immigration Proposes Bureau to Aid the Unemployed.

RESULT OF CONFERENCE HELD IN SAN FRANCISCO

Federal, State and Municipal Governments to Be Brought Into Close Co-Operation.

Ready to launch plans for a gigantic employment system, in which the federal, state and municipal governments co-operate which was shown. While he admitted that some of the state and city officials had the erroneous idea that there was absolutely no criticism at the meetings, he said, was corrected before the meeting had gone many hours.

"As soon as Secretary Wilson comes to the city," said Commissioner General Caminetti has been at San Francisco attending the conference of federal, state and municipal labor officers and immigration officers called for the purpose of depleting the great army of unemployed.

The conferences, according to Mr. Caminetti, were noted for the spirit of co-operation which was shown. While he admitted that some of the state and city officials had the erroneous idea that there was absolutely no criticism at the meetings, he said, was corrected before the meeting had gone many hours.

"The papers will be asked to designate some employee who can be depended upon to place two copies of proofs of the war record of the unemployed in the hands of the federal employment bureau in the district in which they are located."

Comparison by Corps of Clerks.

A corps of clerks, experts in the work of bringing the unemployed to work, will compare the newspaper lists with the requests for jobs and for help already on file in the offices. The various advertisements will be classified, and the clerks will find a person who wants a certain kind of work, then they will go to the files to find the party who seems to fit the bill and get them into communication with each other.

Advance Against Grodno.

BERLIN, August 30, via London, 4:10 p.m.—German forces have made a further advance on the Russian fortress of Grodno, the only one of their fortified positions near the German border which still remains in Russian possession. The Russian announcement was made here today of the capture of Lipsk, in northern Russian Poland, about twenty miles to the west of Grodno.

The Austro-German troops have broken the Russian lines along the Zlota Lipa river, in East Galicia, the Austro-German forces have taken a section of the front where for a long time they have been merely holding their positions. The Russian extreme left flank has been exposed by the general defeat, now apparently is shaken and involved in the general retirement. Military experts expect that the invaders soon will be expelled from that little corner in Galicia where they have been able to maintain a foothold on Austrian soil.

This development, together with the news that the Russian army has retreated east of Kovle, is believed here to indicate the opening of a campaign against the Russian frontiers.

The Russian army has retreated east of Kovle, is believed here to indicate the opening of a campaign against the Russian frontiers.

Germans Pressing Pursuit.

The Russian armies retreating north and south of Brest-Litovsk are separated by the Rottine swamps, and military experts say that the Austro-German strategists are in a position to mass forces at will against either Russian wing and expose it to a crushing defeat. Dispatches received here today say that the Russian resistance behind Brest-Litovsk has been broken. The Russian army is being pressed with all the energy laid down in the German manuals.

The Russian army is being pressed with all the energy laid down in the German manuals.

Again Is Interned.

Gilbert arrived this morning at the village of Hostenhagen, where he was interned. The Swiss papers, the dispatch states, declare that a most excellent impression has been created in Switzerland by the return of Gilbert. Dr. Lardy, the Swiss minister to France, called on Minister of War Millerand today to present "the thanks of the Swiss government for the courteous and chivalrous decision taken by the French government concerning Second Lieut. Aviator Gilbert."

Withdrew His Promise.

It has developed that Gilbert, before escaping, had written a letter to the Swiss general staff withdrawing his word of honor that he would make no attempt to escape. The Swiss papers, the dispatch states, declare that a most excellent impression has been created in Switzerland by the return of Gilbert. Dr. Lardy, the Swiss minister to France, called on Minister of War Millerand today to present "the thanks of the Swiss government for the courteous and chivalrous decision taken by the French government concerning Second Lieut. Aviator Gilbert."
